

## Website Name

The World of Drake

## Topic Description

This website will be dedicated to showcasing the life, music, and influence of the artist Drake. Drake, born Aubrey Graham, is one of the most influential rappers, singers, and cultural icons of our generation. The website will cover his career beginnings, discography, tours, and achievements. It will also highlight his fashion, business ventures, and impact on pop culture. Fans will be able to interact with the site by exploring his music catalog, learning about his background, and even sharing their favorite songs and albums.

## Page Names

1. Home – Introduction, featured images, and latest updates about Drake.
2. About Drake – Biography, early life, and career journey.
3. Music & Albums – Full discography with details, including tracklists and release dates.
4. Tours & Performances – Information about past and upcoming concerts, with media highlights.
5. Fan Zone – Interactive space where fans can submit their favorite Drake songs, rank albums, or leave comments.

## Data Storage, Manipulation, and Viewing

Data Stored: User-submitted song title, album, short comment (why they love it), and rating (1–5).

Manipulation: Users can add new submissions, update their ratings, and delete their entries.

Viewing: The Fan Zone page will display a list of all fan submissions, sortable by album or rating.

Access Control: General users can add/view their entries, but only the admin can delete inappropriate content.

Technical Example: A database table will include fields such as `submission_id`, `song_name`, `album`, `comment`, `rating`, and `user_id`.
